1. The first step is to identify the problem. This involves understanding the current situation and the goals that need to be achieved.

2. Next, we need to gather information. This includes researching the problem, identifying the stakeholders, and understanding the resources available.

3. Once we have gathered the information, we can begin to develop a plan. This involves identifying the steps that need to be taken to solve the problem.

4. The next step is to implement the plan. This involves putting the plan into action and monitoring the progress.

5. Finally, we need to evaluate the results. This involves assessing the effectiveness of the solution and identifying any areas for improvement.
